10/28/2026 13:57:21	8 / 15	Mirabelle. Ikumogunniyi
10/28/2026 13:58:36	12 / 15	jason oyebola
10/28/2026 14:03:43	12 / 15	Oluwafisiolami Tobi-craig
10/28/2026 14:09:13	14 / 15	Courage Onoyeyan

Which part is called the brain of the computer?	Which key combination types one capital letter?
CPU	Shift + letter
CPU	Shift + letter
CPU	Shift + letter
CPU	Shift + letter
CPU	Shift + letter

Which shortcut quickly saves your work?	What is a sentence?	How should a sentence begin?
Ctrl + P	a group of words expres	with a full stop
Ctrl + P	a group of words expres	with a full stop
Ctrl + S	a group of words expres	with a full stop
Ctrl + S	a group of words expres	with a capital letter
Ctrl + S	a group of words expres	with a capital letter

Which punctuation mark can end a statement sWhat does Backspace delete?

full stop	the character to the right of the cu
full stop	the character to the right of the cu
full stop	the character to the left of the cur
full stop	the character to the left of the cur
full stop	the character to the left of the cur

What does the Delete key remove when the cu	What does proofreading mean?
the character on the right	reading work again to check for mi
the character on the left	moving an icon
the character on the right	changing the screen colour
the character on the right	closing a program without saving
the character on the left	reading work again to check for mi

What does drag and drop allow you to do? What should you do while dragging an item?

move an object on the screen to another pla	hold the left mouse button, move the item, ther
move an object on the screen to another pla	hold the left mouse button, move the item, ther
move an object on the screen to another pla	hold the left mouse button, move the item, ther
move an object on the screen to another pla	right-click repeatedly
move an object on the screen to another pla	hold the left mouse button, move the item, ther

When you minimise a window, what happens? What is a folder used for?

the file is deleted	holding and organising files
the file is deleted	holding and organising files
the window is hidden but remains on the taskba	holding and organising files
the window is hidden but remains on the taskba	holding and organising files
the window is hidden but remains on the taskba	holding and organising files

Which is the clearest file name?	How can you open a saved file?
New file	use File > Open or double-click its icon
New file	use File > Open or double-click its icon
Document1	use File > Open or double-click its icon
Year2_Amina_Typing	press Space Bar
Year2_Amina_Typing	use File > Open or double-click its icon

SEMS | YEAR 2 DIGITAL LITERACY

FIRST CONTINUOUS ASSESSMENT

25 QUESTIONS | 25 MARKS | 1 MARK EACH

Name: _____ Date: _____

Class: Year 2 Score: _____ / 25

Instructions: Answer all questions. Write a short, clear answer in the space provided. Each question carries 1 mark.

No.	Question	Your answer
1	Which part is called the brain of the computer?	
2	Which key combination types one capital letter?	
3	Which shortcut quickly saves your work?	
4	What is a sentence?	
5	How should a sentence begin?	
6	Which punctuation mark can end a statement such as “I like computers.”?	
7	What does Backspace delete?	
8	What does the Delete key remove when the cursor is before a character?	
9	What does proofreading mean?	
10	What does drag and drop allow you to do?	
11	What should you do while dragging an item?	
12	When you minimise a window, what happens?	
13	How can you bring a minimised window back onto the screen?	
14	What is a folder used for?	
15	Which is the clearest file name: “New file”, “Document1”, or “Year2_Amina_Typing”?	
16	How can you open a saved file?	
17	Which device do you use to point to and select items on the screen?	
18	What is a keyboard used for?	

19 What does the Enter key usually do when you are typing?

20 What does the Spacebar do when you are typing?

21 What does a computer monitor do?

22 What is an icon on a computer screen?

23 What is the desktop?

24 Why should you save your work regularly?

25 What is a computer file?

END OF ASSESSMENT — CHECK THAT YOU HAVE ANSWERED ALL 25 QUESTIONS.

TEACHER'S MARKING GUIDE — YEAR 2 DIGITAL LITERACY

Award 1 mark for the expected concept. Accept equivalent age-appropriate wording.

No.	Question	Expected answer / acceptable response	Skill area
1	Which part is called the brain of the computer?	The CPU (Central Processing Unit).	Computer parts
2	Which key combination types one capital letter?	Hold Shift and press the letter key.	Keyboard skills
3	Which shortcut quickly saves your work?	Ctrl + S.	Keyboard shortcuts
4	What is a sentence?	A group of words that expresses a complete thought.	Writing skills
5	How should a sentence begin?	With a capital letter.	Writing skills
6	Which punctuation mark can end a statement such as “I like computers.”?	A full stop (period).	Writing skills
7	What does Backspace delete?	The character to the left of the cursor.	Keyboard skills
8	What does the Delete key remove when the cursor is before a character?	The character to the right of the cursor.	Keyboard skills
9	What does proofreading mean?	Reading work again to find and correct mistakes.	Editing skills
10	What does drag and drop allow you to do?	Move an item from one place to another on the screen.	Mouse skills
11	What should you do while dragging an item?	Hold the left mouse button, move the item, then release the button.	Mouse skills
12	When you minimise a window, what happens?	The window is hidden but remains open on the taskbar.	Using windows
13	How can you bring a minimised window back onto the screen?	Click the window’s icon on the taskbar.	Using windows
14	What is a folder used for?	Keeping and organising files.	Files and folders
15	Which is the clearest file name: “New file”, “Document1”, or “Year2_Amina_Typing”?	Year2_Amina_Typing, because it describes what the file contains.	Files and folders
16	How can you open a saved file?	Use File > Open, or double-click the file’s icon.	Files and folders
17	Which device do you use to point to and select items on the screen?	A mouse.	Computer parts
18	What is a keyboard used for?	Entering letters, numbers and other instructions into the computer.	Keyboard skills
19	What does the Enter key usually do when you are typing?	It moves the cursor to a new line (or confirms a command).	Keyboard skills
20	What does the Spacebar do when you are typing?	It inserts a space between words or characters.	Keyboard skills
21	What does a computer monitor do?	It displays information, words and pictures on the screen.	Computer parts
22	What is an icon on a computer screen?	A small picture or symbol that represents a file, folder or program.	Desktop skills
23	What is the desktop?	The main screen or work area where you see icons after the computer starts.	Desktop skills

24	Why should you save your work regularly?	So you do not lose your work if the computer or program closes.	Files and folders
25	What is a computer file?	A saved item of information, such as a document, picture or piece of work.	Files and folders

IMPORTANT: These are illustrative, ability-informed practice responses created from the original 1

Student name	Original score (/15)	Estimated practice mark (/25)	Q1: Which part is called the brain of the computer?
Mitchelle Ikummogunniyi	10	**18**	CPU
Mirabelle Ikumogunniyi	8	**14**	CPU
Jason Oyebola	12	**20**	CPU
Oluwafisiolami Tobi-Craig	12	**20**	CPU
Courage Onoyeyan	14	**23**	CPU

L5-question response patterns. They are NOT answers submitted by the learners.

Q2: Which key combination types one capital letter?	Q3: Which shortcut quickly saves your work?	Q4: What is a sentence?
Hold Shift and press a letter	Ctrl + P	A group of words expressing a complete thought
Shift + letter	Ctrl + P	A group of words that makes a complete thought
Shift + letter	Ctrl + S	A group of words that expresses a complete thought
Shift + letter	Ctrl + S	A group of words that expresses a complete thought
Shift + letter	Ctrl + S	A group of words that expresses a complete thought

Q5: How should a sentence begin?	Q6: Which punctuation mark can end a statement such as “I like computers.”?	Q7: What does Backspace delete?
With a full stop	Full stop	The character to the right of the cursor
With a full stop	Full stop	The character to the right of the cursor
With a full stop	Full stop	The character to the left of the cursor
With a capital letter	Full stop	The character to the left of the cursor
With a capital letter	Full stop	The character to the left of the cursor

Q8: What does the Delete key remove when the cursor is before a character?	Q9: What does proofreading mean?	Q10: What does drag and drop allow you to do?
The character to the right of the cursor	Reading work again to check for mistakes	Move an object on the screen to another place
The character to the left of the cursor	Moving an icon	Moving an icon to another place
The character to the right of the cursor	Changing the screen colour	Move an object on the screen to another place
The character to the right of the cursor	Closing a program without saving	Move an object on the screen to another place
The character to the left of the cursor	Reading work again and checking for mistakes	Move an item on the screen to another place

SEMS YEAR 2 DIGITAL LITERACY — SIMULATED FORM RESPONSES

Q11: What should you do while dragging an item?	Q12: When you minimise a window, what happens?	Q13: How can you bring a minimised window back onto the screen?
Hold the left mouse button, move the item, then release	The file is deleted	Click the Start button
Hold the left mouse button, move the item, then release	The file is deleted	Double-click the desktop background
Hold the left mouse button, move the item, then release	The window is hidden but remains on the taskbar	Click its icon on the taskbar
Right-click repeatedly	The window is hidden but remains on the taskbar	Click its icon on the taskbar
Hold the left mouse button, move the item, then release	The window is hidden but remains on the taskbar	Click its icon on the taskbar

Q14: What is a folder used for?	Q15: Which is the clearest file name: “New file”, “Document1”, or “Year2_Amina_Typing”?	Q16: How can you open a saved file?
Holding and organising files	New file	Use File > Open or double-click its icon
Holding and organising files	New file	Use File > Open or double-click its icon
Holding and organising files	Document1	Use File > Open or double-click its icon
Holding and organising files	Year2_Amina_Typing	Press Space Bar
Keeping and organising files	Year2_Amina_Typing	Use File > Open or double-click the file icon

Q17: Which device do you use to point to and select items on the screen?	Q18: What is a keyboard used for?	Q19: What does the Enter key usually do when you are typing?
Mouse	To type letters and numbers	It makes a space
Mouse	To type letters and numbers	It moves to the next line
Mouse	To type letters and numbers	It deletes a word
Mouse	To enter letters and numbers	It deletes letters
Mouse	To type letters and numbers	It gives a space between words

Q20: What does the Spacebar do when you are typing?	Q21: What does a computer monitor do?	Q22: What is an icon on a computer screen?
It puts a space between words	It shows information on the screen	A small picture for a program
It moves to the next line	It shows words and pictures	A small picture on the screen
It puts spaces between words	The monitor displays words and pictures	A small picture that represents a program
It inserts a space between words	It displays information on the screen	A small picture representing a program or file
It inserts spaces between words	It displays information on the screen	A small picture or symbol for a file or program

Q23: What is the desktop?	Q24: Why should you save your work regularly?	Q25: What is a computer file?
The main screen where icons are shown	So the work will not be lost	A saved document or information
A table for the computer	So the work is not lost if the computer goes off	A folder that keeps other files
The main screen after you log in	To prevent losing your work	A folder for keeping work
The main work screen where icons are shown	To stop work from being lost	A saved document
The main screen after the computer starts	To prevent losing your work	A saved document or item of information

SIMULATED MARK

1 = simulated response matches the expected answer; 0 = simulated response does not match. These are estin

Student	Original score (/15)	Simulated mark (/25)	Q1	Q2	Q3	Q4
Mitchelle Ikummogunniyi	10	**18**	1	1	0	1
Mirabelle Ikumogunniyi	8	**14**	1	1	0	1
Jason Oyebola	12	**20**	1	1	1	1
Oluwafisiolami Tobi-Craig	12	**20**	1	1	1	1
Courage Onoyeyan	14	**23**	1	1	1	1

ING — TRANSPARENT QUESTION-BY-QUESTION ESTIMATES

INDIVIDUAL LEARNING PROFILE — BASED ON ORIGINAL RESPONSES

Use these notes to guide practice and follow-up. Projected marks are estimates from simulated answers, not official assessment results.

Student	Original score (/15)	Simulated estimate (/25)	Observed strengths	Priority areas for practice	Teacher's next step
Mitchelle Ikummogunniyi	10	18	Identifies the CPU; knows Shift for a capital letter; understands sentence meaning, punctuation, proofreading, drag-and-drop, folders and opening saved files.	Ctrl+S; starting a sentence with a capital letter; Backspace versus Delete; minimising/restoring windows; descriptive file names; Enter key.	Use short keyboard drills and a guided file-management activity. Ask Mitchelle to explain each step aloud.
Mirabelle Ikumogunniyi	8	14	Recognises the CPU and Shift key; understands sentence meaning and full stops; can describe moving an icon and the basic drag-and-drop sequence; knows folders and how to open a file.	Saving shortcut; capital letters at the start of sentences; Backspace versus Delete; proofreading; minimising/restoring windows; useful file names; desktop and file concepts.	Re-teach one skill at a time using demonstrations, then let Mirabelle repeat the action. Give extra practice distinguishing editing from moving icons.
Jason Oyebola	12	20	Good understanding of CPU, keyboard shortcuts, sentence meaning, punctuation, Backspace/Delete, drag-and-drop, minimising windows, folders and opening files.	Capital letter at the start of a sentence; proofreading; choosing descriptive file names; Enter key; difference between a file and a folder.	Give a short editing task and a save-name-open routine. Ask Jason to explain why a file name is useful.
Oluwafisiolami Tobi-Craig	12	20	Strong on keyboard basics, sentence formation, punctuation, Backspace/Delete, minimising windows, folders and descriptive file names.	Proofreading; correct left-button drag-and-drop sequence; opening saved files; Enter key and its purpose.	Practise a complete mouse task and a file-opening routine. Include a short proofreading exercise before saving.
Courage Onoyeyan	14	23	Very strong across the original assessment: keyboard shortcuts, writing basics, proofreading, drag-and-drop, window management, folders, file naming and opening files.	The main observed gap is the difference between Backspace and Delete. Reinforce Enter versus Spacebar as a small follow-up.	Use extension practice with paired examples: Backspace removes to the left; Delete removes to the right. Encourage independent explanation.
